

«We know what our products are made of»

Group of companies "A7 Agro"

The group of companies "A7 Agro" includes:

- Agroholding "A7 Agro", which is engaged in breeding cattle, growing vegetables and crops,
- The company "A7 Agro Processing", which is engaged in the production of meat, sausage and dairy products.

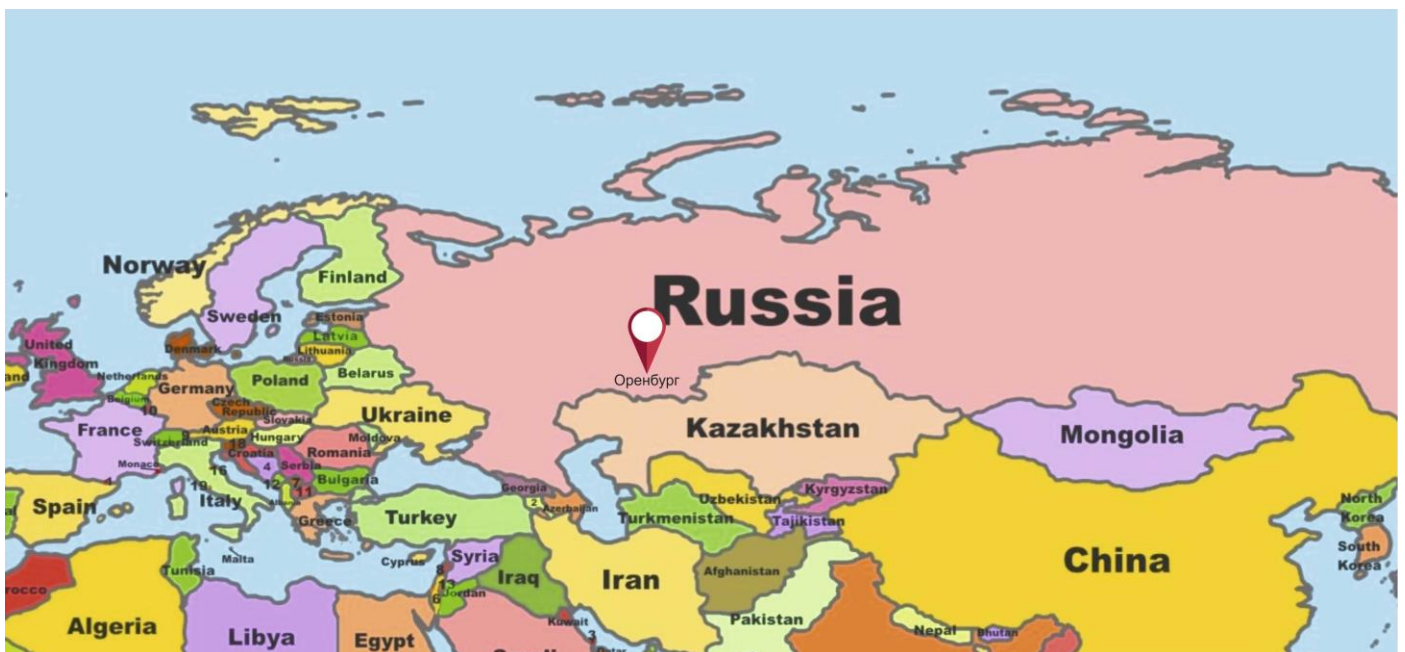

We grow, process and sell our products ourselves.

Thanks to this approach to work, we fully control all stages of production: from plowing the land to the product packaging and its delivery to the stores.

ABOUT MANUFACTURER

Our agricultural holding is more than 110 thousand hectares of arable land in the Orenburg region and the Republic of Bashkortostan, more than 6 500 head of cattle.

The shop of meat products and semi-finished products is equipped with new, modern equipment. Experts from Europe advise us. Invited specialist from Italy, who is an expert in the production of meat delicacies, leads the direction.

ABOUT PRODUCTION

Innovative approaches

We use advanced farming technology and modern equipment.

Own raw material

Meat products are made only from natural meat grown on the farms "A7 Agro"

OUR PRODUCTION:

VEGETABLES
(potato, carrot, cabbage, beet)

SAUSAGES
(cooked, smoked and cervelat
sausage)

AGRICULTURAL CULTURES
(wheat, barley, buckwheat, rye, oats,
corn, sunflower)

MEAT AND MEAT SEMI-FINISHED
PRODUCTS
(steaks, dumplings, minced meat)

PARTNERS

Why is it profitable with us?

- High quality

We grow raw materials for forage ourselves. We keep Hereford bulls for premium meat raw materials on our own farms, from which we later produce meat products.

- ECO-PRODUCT

Our production is actively developing in the field of eco-products.

- Delivery conditions

Incoterms.

- Fixed manager

Have a question or suggestion? Just write or call your manager.

- Partner support

We will provide the necessary support. We will help protect the interests of our partners.

Being a partner of "A7 Agro" means taking care of the health and lives of those around you!
